💼 WORK EXPERIENCE

IOS Developer – AGS
📍 Houston, Texas

May 2016 - PRESENT

Developed new iPhone/iPad application that allowed users to report local issues, check status of issues, share locations, images, videos and audio and view messages from county level government officers and more. Responsible for all phases from implementing the design, writing code, testing, debugging and deployment. Built connection to the database and parsed data using JSON. Integrated core location framework, NSSerialization, NSURLConnection, JSON, Core Data, SQLite, Core Animation, Core Graphics, UIKit, MapKit, NSNotificationCenter, NSUserDefaults, GCD, Cocoa Touch, REST
Using Objective-C, Swift and XCode.

Jr. IOS Developer – BlueGiant Interactive
📍 Hyderabad, India

Feb 2013 – Nov 2013

My professional career started with this project on visually advanced game developed with Core Animation, Core Graphics, JSON, REST, Core Data, TableViews, Custom Toast View, Plist, Cocoa Touch, Auto Layouts, WebKit, NSOperationQueues, Grand Central Dispatch, Delegates, Protocals, Segment Controller using Objective-C and Xcode.

WEB/JAVA Developer – IBM TGMC Competition
📍 Hyderabad, India

March 2012 – Oct 2012

A team of four built web project on Wild Life in TGMC competition and got certified by IBM. Built using HTML5, CSS3, JQuery, Java Script with WebSphere as application server and DB2 as backend database.
